

Leagues Refund Policy

SATA has instituted a refund policy for all USTA and SATA leagues. Effective immediately, registered players requesting removal from a roster prior to the start of the league season will have three options:

1. Transfer to another team (with permission from that team captain)
2. Receive a full credit (hold over) to be used by June 30 in the current league year (September through August).
3. Receive a partial refund of \$22 (SATA is unable to refund the portion of registration fees that go to USTA and TennisLink).

If a league or event is cancelled by USTA or SATA, the player will receive a full refund of the registration paid (minus the TennisLink fee). Prior to the start of a league, registrations may be transferred from one team to another (in the same league).

Players who currently have a held over registration will have until June 30 to use the registration for another league or team. Players who have a held over registration will see themselves registered on a team called **HOLDOVER** for the current season (please log into [TennisLink](#) to view your team registrations). All held over registrations not used by June 30 will expire and no refund will be given.

For questions regarding the SATA refund policy, please contact the leagues director at leagues@satennis.com.
